This product includes a high-quality MP4 video file that can be used as an animated wallpaper on your phone.

Please follow the instructions below based on your device

FOR ANDROID USERS

Android allows video wallpapers using a free app.

Step 1: Download the MP4 file

Save the video to your phone gallery.

Step 2: Install a Video Wallpaper App

Search in Google Play for:

- “Video Live Wallpaper”
- “Video Wallpaper”

(Any similar free app will work.)

Step 3: Set as Wallpaper

1. Open the app
2. Select the downloaded MP4 file
3. Adjust settings if needed
4. Tap “Set as Wallpaper”
5. Choose Home Screen or Home + Lock Screen

Done! Your animated wallpaper should now be active.

FOR IPHONE USERS

iPhone requires converting the MP4 file into a Live Photo before setting it as wallpaper.

Step 1: Download the MP4 file

Save it to your Photos app.

Step 2: Install a Free App

Search in the App Store for:

- “intoLive”
- “Video to Live Photo”

Step 3: Convert to Live Photo

1. Open the app
2. Select the MP4 video
3. Trim to 3–5 seconds (recommended)
4. Tap “Save as Live Photo”

Step 4: Set as Wallpaper

1. Go to Photos
2. Open the Live Photo
3. Tap Share → Use as Wallpaper
4. Set as Lock Screen

 Note: On newer iOS versions, the animation plays when you press and hold the Lock Screen.

RECOMMENDED SETTINGS

For best performance:

- Keep video length under 10 seconds
 - Use original resolution (avoid excessive cropping)
 - Turn off battery saver mode if the animation does not play
